Appomattox Building Booms

Appomattox has experienced quite a building boom thus far in 1959. Residential housing has led the procession, and the varied building projects have provided considerable employment.

A check at the office of the town manager, C .J. Hunter, reveals that permits for thirteen residences have been issued during the first six months of 1959, with another permit for repair and improvement, for a total expected cost to the builders of $138,400.

A number of the new homes have gone up, and are going up, in the residential area between Virginia Avenue and the Elementary School, west of Court Street. New streets have been laid off through this section, and attractive, modern homes are being constructed.

J. E. Seara & Co. has a building project under way on a new street opened up off Anderson Mill Road, in northeast Appomattox.

Also of interest are the building plans of Mr. F. H. Carwile, who has a row of homes under construction on North Avenue. Eighteen months ago, Mr. Carwile opened up a new street, Sunnydale Ave., in south west Appomattox, erecting three homes, and a fourth has been added.

Mr. Carwile plans a total of 7 homes in the North Street development. Building permits for three have been secured, and work is well forward. They are one story, three bedroom, ranch-type homes, with car-port.

At the rate for the first half of the year, building construction in the corporate limits should go well towards $300,000 during 1959.

Mrs. Marshall Names Club Committees

Mrs. Benjamin H. Marshall, president of the Appomattox Junior Woman's Club, has announced the following chairmen for the 1959-61 club years: parliamentarian, Mrs. W. E. Jamerson; ways and means chairman, Mrs. Ed Cawthorne; hospitality, Mrs .Fred Lawson; budget and finance, Mrs. Billy Chenault; yearbook, Mrs. Taylor Matthews; communications and pressbook, Mrs. Ray Wilhoit; point system committee, Mrs .Henry Chenault; fine arts depeurement chairman, Mrs. Richard Wingfield; public affairs department chairman, Mrs. Frank McCann; special chairmen: Stamps For Wounded Veterans, Mrs. Paul Doss; devotional chairman, Mrs. Fred Smith.

Mrs. S. R. Lawson and Mrs. W. E. Jamerson report that an application for the crippled child to be sent to Camp Easter Seal in July is near completion.

ARGENTINE VISITOR LIKED APPOMATTOX

. . . Emma Elizabeth Rocha

To: Mr. Calvin H. Robinson,
The Times-Virginian,
Appomattox, Va.

I was very happy when I was selected as an I.F.I.E. to come to the United States. My life with my host families has been an enjoyable, wonderful and educational experience. Moving from one family to another, in Virginia—one of the prettiest places, I think — I find America's people are generous, friendly and kind-hearted. Everywhere I've been, in this country, they've made me feel at home. They said, "This is your home," and they not only open it for me, but also their hearts.

While I was here, I participated in families' activities and learned about your customs and way of life — and also I helped the American people to have a clearer understanding of customs and habits in my country.

I am the first I.F.I.E. from Argentina in Virginia. I hope I can be a good ambassador of my country and you can learn a little more about Argentina, (isn't only good cattle, beef, wheat and Perons). We have wonderful countrysides and other riches. If sometime you are going to South America, remember in Argentina Emma Elizabeth Rocha, from Roque Perez, Provincia of Buenos Aires, will be happy to show you her country.

All my life I will enjoy remembering people, your hospitality, and the beautiful countrysides of Virginia.

Emma Rocha

The thirteenth annual meeting of the Flue-Cured Cooperative Stabilization Corporation will be held in Raleigh, N. C. Friday, June 26, at the Sir Walter Raleigh Hotel.

All flue-cured growers are members of this organization, which buys tobacco that does not bring the support price.

Many people erroniously believe that the government buys the tobacco, when actually, this farmer-owned corporation buys the tobacco with money borrowed from the Bank of Cooperatives.

The highlight of this meeting will be an address by James P. Richards, President of the Tobacco Institute, Inc. All flue-cured growers are invited to attend.

DRY WEATHER CAUSES FIRE DANGER

Dry weather from lack of rain is again plaguing Division of Forestry Foresters and timber owners. Parched forestland, drying rapidly since substantial rain fell on June 2, is ready to burn, say Forest Wardens.

Forest fires have escaped in 6 of the 10 counties in Farmville district during the past 10 days and foresters are asking that all burning operations be halted until rain comes. Most of the 11 fires occurring since June 8 and increasing in occurrance during the past week have been caused by brush and by trash burning. Several escaped from grain fields, set fire accidently during combining operation.

Prince Edward County has had 3 fires, the largest burning 10 acres; Charlotte County 1 fire; Nottoway County 1 fire; Mecklenburg County 1 fire; Lunenburg County 2 fires, and Buckingham County 2 fires during the past two weeks.

TIME TO MAKE WHEAT APPLICATIONS

As required by present law, a wheat marketing quota referendum has been announced for July 23, 1959, Chairman W. D. Hix, III, Appomattox County Agricultural Stabilization and Conservation Committee announced today.

Marketing quotas for the 1960 wheat crop have been proclaimed by the Secretary of Agriculture, as required by legislation whenever the available supply of wheat is more than 30 per cent above the normal supply. However, quotas will not become effective unless they are approved by at least two-thirds of the producers voting in the referendum.

If quotas are approved for the 1960 wheat crop, it will mark the seventh consecutive year they have been used for wheat. Wheat quotas and acreage allotments apply only in the 39 so-called "commercial" wheat states, of which Virginia is one.

The 1960 national wheat acreage has been set at 55 million acres, which is the maximum permitted under the present law. This is divided between the commercial wheat states on wheat history basis. Virginia's share of the allotment for 1960 is 256,173 acres. This compares with an allotment of 259,999 acres in 1959.

The present law, the chairman explained, states that, to be eligible to vote in the referendum, a grower must expect to have more than 15 acres of wheat for harvest as grain in 1960. A wheat grower who signs an application under the feed wheat provision permitting him to produce up to 30 acres of wheat as feed on his farm will not be eligible to vote. Every wheat grower will be informed of the individual wheat allotment for his farm in advance of the referendum date.

Play safe — drive carefully.
